

2020 Solid Waste Annual Fee

The Solid Waste Annual Fee partially funds the cost of Tompkins County's solid waste program. Your 2020 annual fee dollars are used for several important purposes.

\$60 per Household

How Are Fees Assessed?

Records from the County Assessment Office are used to determine the fees. They are based on a rate per unit for single family houses, two family residences, mobile homes, and apartments. Non-residential properties are billed on a square footage basis.

The Solid Waste Annual Fee is billed as a separate line each year on the County property tax bill.

Important Fee Dates

- January 31 – Payment deadline.
- April 30 – Fee reduction deadline for two family houses that are used as single units for the following year.
- May 31 – Deadline to file an appeal for the following year.
